November 18, 2010

Dear USW 7-669 Representative:

We have received your letter requesting a meeting with Dave Cote during your visit today.

Our negotiating team has been assigned to bargain in good faith with your local toward a fair and equitable agreement that will help put Metropolis Works on a path toward profitability. Dave Cote is not part of this negotiating team, and will not be available to meet with you today. We do, however, look forward to the resumption of negotiations this coming Monday, November 22.

You received a letter from us earlier this week urging your help to ensure today's event is conducted safely and in the public right of way. Security is available to identify the area if needed.

Thank you in advance for your help in ensuring that any union activities in the Morristown area are conducted in a safe and legally compliant manner.

Sincerely,

Allen R. Clarke
Vice President, Labor & Employee Relations
